Thousands of Lies Manuel Marrero, 2015-12-20 When Agent Rx, chronic criminal and fugitive, goes off on a dust binge, he hits rock bottom and hits the road, leaving a trail of tears, violence and infamy in his wake. Meanwhile, Jordan Strong uncovers a highly classified method of time travel under the fixed scrutiny of various government agencies and chapters of the occult all coveting his guinea pig tits 'n appeal. Enlisting Rx's blue-collar bred double helix for tedium and accumulation of detail, they exploit parallel realities and paradoxical time lines to mine a collaborative novel transcribed from the voices of the dead. They stage the Phenotypical Exploitation, a kidnapping of Jane Bale and subsequent sale to NYC's dance music circuit, purveyor of drugs, sex and art. But their interests unravel when Agent Rx tries to reverse engineer the domestic trial of the century, bringing the novel, its author and the Exploitation's fatally erotic subject into notoriety for dollars on

retrograde dimes. Together, they embark on a literary crusade of self-sabotage that threatens to fall off the cutting edge of a techno thriller, picaresque odyssey and log of skeletons. An upscale Polish call girl develops a posthumous reputation as the poster child for the right to die movement. The simultaneous advances in medical science and life expectancy coincide with the human colonization of Mars. A transgendered stick-up thug pulls off a career robbery, befriends a US President, gets used by the CIA, and becomes a father. A media star attempts to change her image. Paranormal visitations threaten the sanity of hard drug addicts, all the while a support group for movement disorders braces as a roundtable therapeutic free-for-all. Is a telephonic method of time travel the real deal, or an exploitation in itself, a device for dredging up juice from a cold vein? This is the story of two men among hundreds of ghosts and trees, from Cuba in the 1930s to New York in 2046. I know folks from the rust belt to the dust bowl who've never seen these trees. Go see them. You owe it to yourself.

Seashore Chronicles Brooks M. Barnes, Barry R. Truitt, 1997-10 ASSATEAGUE, Chincoteague, Parramore, Smith's, Hog, Wallop's: The names of Virginia's isolated barrier islands evoke their beauty and wildness, their dynamic ecology. Drawing chapters from the writings of novelists, naturalists, journalists, and outdoorsmen, Seashore Chronicles presents the history of these slender, constantly shifting landforms from the 1650s to the present. Robert E. Lee surveys the agricultural potential of Smith's Island, and a young Howard Pyle describes the Chincoteague pony penning. William Warner provides an impressionistic foreword and noted writer Tom Horton adds a contemporary chapter on the islands' survival. Eastern Shore residents Brooks Miles Barnes and Barry R. Truitt have compiled a cyclical story of economic settlement, of destruction and conservation, for those who have visited the islands many times as well as for those who have not yet experienced their alluring vitality.

The Old Weird Albion Justin Hopper,2017 A woman stands at the edge of a cliff, looking out to sea and the horizon. Dancers welcome the sun in a circle of stones. A dowsing road turns without warning. A church bell. Footsteps. Old Weird Albion is America writer Justin Hopper's dark love song to the English South; a poetic essay interrogating the high, haunted landscape of the South Downs Way; the memories, myths and forgotten histories from Winchester to Beachy Head. When someone disappears, when someone leaps from a cliff and is all-but-erased from memory, what traces might we find in the crumbling chalk of the cliff face; in the wind that buffets the edge of this Albion? A skewed alternative to Bill Bryson, Hopper casts himself as the outsider as he wanders the English countryside in pursuit of mystical encounters. His journey sees him joining New Age eccentrics and accidental visionaries on the hunt for crop circles and druidic stones, discussing the power of nature with ecotherapists and pagans, tracing the ruins of abandoned settlements and walking the streets of eerie suburbs. Through a startling revelation of his own family history, Hopper turns part detective, part memoirist, tracking the footsteps of his grandfather's first wife, Doris; piecing together her forgotten history.

The Eastern Curlew (16pt Large Print Edition) Harry Sadler,2018-10-04 Every year around August, large flocks of Eastern Curlews leave their breeding grounds in the Arctic and embark on a perilous 10,000km journey to the coast of Australia. The birds cannot swim; if they become exhausted and fall into the ocean, they die. But it's a journey they have taken for tens of thousands of years, tracing invisible flyways in the sky in what is one of the most spectacular mass migrations in the animal kingdom. Following the Eastern Curlew along its migratory path, award-winning nature writer

Harry Saddler explores how these incredible birds have impressed themselves on the cultures of the countries they fly through, the threat to their survival posed by development, and the remarkable ways these birds and humankind may be entwined. The Eastern Curlew is a delightful and vivid portrait of a fascinating natural phenomenon.

Maritime Maryland William S. Dudley, 2010-10 Winner, John Lyman Award, North American Society for Oceanic History Winner, Heritage Book Award, Maryland Historic Trust First Place, Professional Scholarly Books, 25th Annual New York Book Show Harvested for food, harnessed for power, and home to more than 3,600 species of plants, fish, and animals, the Chesapeake Bay and its tributaries have long been essential to the sustainability and survival of the region's populations. Historian William S. Dudley explores that history in an engaging and comprehensive account of Maryland's storied maritime heritage. Dudley paints a vivid picture of Maryland's maritime past in its broadest scope, exploring the complex and nuanced interactions of humans, land, and water through descriptions of shipbuilding, steam technology, agricultural pollution, commercial and passenger transportation, naval campaigns, watermen, crabbing, and oystering. He also discusses the evolution of recreational boating—yachting, cruising, and racing—and the role of underwater archaeology in uncovering the bay's shipwrecks. These interactions become chapters in the larger story of Maryland's waterways, a story that Dudley tells through insightful prose and stunning illustrations. This rich history of Maryland's waterways reveals how human enterprise has affected—and been affected by—the Chesapeake Bay and its tributaries.

Isaac's Storm Erik Larson, 2000-07-11 NEW YORK TIMES BESTSELLER • The riveting true story of the Galveston hurricane of 1900, still the deadliest natural disaster in American history—from the acclaimed author of *The Devil in the White City* “A gripping account ... fascinating to its core, and all the more compelling for being true.” —The New York Times Book Review September 8, 1900, began innocently in the seaside town of Galveston, Texas. Even Isaac Cline, resident meteorologist for the U.S. Weather Bureau failed to grasp the true meaning of the strange deep-sea swells and peculiar winds that greeted the city that morning. Mere hours later, Galveston found itself submerged in a monster hurricane that completely destroyed the town and killed over six thousand people—and Isaac Cline found himself the victim of a devastating personal tragedy. Using Cline's own telegrams, letters, and reports, the testimony of scores of survivors, and our latest understanding of the science of hurricanes, Erik Larson builds a chronicle of one man's heroic struggle and fatal miscalculation in the face of a storm of unimaginable magnitude.
