Like so many others in the world, I've been brought up with the message: ' Get a good job, work hard, and you're going to be able to live a modest to decent life.' My fiancée and I had decent work and we saved a fair amount of money and we lived well. But when we started thinking about how we wanted to live, and the life we wanted for our future kids, and how we wanted to live in retirement, we began to realize that we would have to work very hard to save a lot of money. And even then we have not been able to live the way we wanted. I knew that there was a safer way out. I was sure people were living a lot easier. And I wanted more than they would offer the usual schedule. I decided to have the financial freedom. The basic lesson

of this law, is to be dedicated if you want to be a millionaire. When you just have hopes and aspirations, you're never really going to be motivated to make the kind of improvements that you need to get the kind of life you want. If you want to earn millions, you need the skills to earn millions, too. It has got to be worth it. You need to invest in improving yourself to become worth it and you need to spend real dollars and you take it seriously. Firstly, I want to give a major congratulations to you for buying my book, you earned a round of applause, you're finally on your way to financial independence. As humans, we all know that money is necessary in order to be able to do some important things in life, such as purchasing a car, paying for your wedding ring, buying a home, paying for college, buying a gift for a loved one etc. The reality is that not everyone believes that money is necessary, and in some instances some people think that money is not at all very important, that happiness and peace of mind are more important than wealth and riches. Okay, this book has not been produced to challenge views and values, but like the famous quote, whatever you want to believe is true. You are champion of your own way of thought. The fact is, your values, attitude and character are a vital part of what defines your level of success. All you need within your reach to become effective s already. It is up to you now to be ready and open-minded to try new things to attain your goals. You're going to have to break some habits; you're going to have to cut off some mates, you're going to have to be showing great discipline and character. Both these are already instilled into your instinct; you just have to reach out and start using them to your advantages. Your subconscious mind must be channeled in such a way as to constantly draw your mind to riches and positivity, or you won't see results. Wealth should not be confused with money making or earning a decent profit and vice versa. When you earn a decent income every year and waste it all, you're not getting richer. You're living up just high. You have to realize, to become a millionaire, that making money is different from creating wealth. Within a short time, you can expend all of your money or profits but you can't spend property. Wealth is built up, diversified and sustainable, not profits. Wealth can be transferred from generation to generation, so short-term wealth or profits won't last long, you guessed right.
